Years of Interim Management

**PROJECTS**

Experience as interim manager for the reorganization of internal processes (logistics, planning, production, purchasing, ERP system) with the aim of achieving parts availability under lean operational processes and efficient project workflows. The Candidate also worked as interim manager for the conceptual optimization of selected internal processes (welding area, painting, planning) with the aim of the best possible cost reduction and parts availability. He had a deployment as Overall Change Manager (OCM) reporting directly to the Central General Manager, responsible for all reorganization and standardization projects centrally and in the individual plants of a big Automotive Company in CZ.

**MANGEMENT EXPERIENCE**

Several years of management at manufacturing companies in Germany, Czech Republic and Slovakia. Reorganization and Restructurings in the Automotive and Machinery Industry. Focused on production optimization. Implementation of automotive standards in the 3 plants in a matrix structure (methodically central, disciplinary via the plant managers). Introduction of a pull system (material flow controlled by KANBAN), a production strategy that led to the relocation of lines between the plants, shop floor management, revision of the bonus system for workers.
